1997

Monte M. Nienkerk has more than 35 years of experience in solid and hazardous waste management, remediation, and site assessment activities. His experience includes hydrogeological investigations and remedial investigation/feasibility studies (RI/FS) for compliance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA); the Resource Conservation and Recovery Act (RCRA) Corrective Action Program and RCRA Part B permit applications; the Illinois Site Remediation Program; and other federal, state, and local regulations affecting permitting, closure plans, and voluntary remediation for treatment, storage, and disposal (TSD) facilities. Mr. Nienkerk has served as the manager of an Illinois Environmental Protection Agency (Illinois EPA) Division of Land Pollution Control regional field office, and as manager of the Illinois State Remedial Action Priority List program.
